

ARUN ARUNACHALAM

Jersey City, NJ | 908-330-1050 | asnarun75@gmail.com | linkedin.com/in/arunarunachalam75

PROFESSIONAL SUMMARY

Technology executive with 17+ years of experience leading large-scale research, development, and platform transformation initiatives across complex, regulated industries. Proven ability to build and lead global engineering teams, drive product development from concept through delivery, and modernize infrastructure to support mission-critical applications. Combines deep expertise in distributed systems, data engineering, and AI-enabled platforms with a track record of delivering measurable business outcomes through disciplined R&D execution. Adept at aligning cross-functional engineering and stakeholder teams around strategic product roadmaps in fast-moving, innovation-driven environments.

SIGNATURE IMPACT

- **\$8M** enterprise transformation → **40% performance improvement, 30% cost reduction**
- **AI-assisted engineering** → **35% faster delivery, 45% productivity gain**
- Scaled platforms from 10 to **50+ systems** with **99.97% uptime**
- Enabled **~\$2B capital efficiency** via risk platform transformation

CORE CAPABILITIES

Product R&D Leadership & Roadmap Execution | Global Engineering Team Leadership | Platform Modernization & Innovation | AI & GenAI Platforms (RAG, Agentic AI) | Cloud-Native Architecture (AWS, Kubernetes) | Data Engineering (Spark, Databricks, ETL/ELT) | Event-Driven Systems (Kafka) | Regulatory & Compliance Systems | Executive Stakeholder Leadership | Strategic Planning & Program Management

PROFESSIONAL EXPERIENCE

Bank of America — Director, Global Risk & Capital Markets Technology (2015 - Present)

- Directed end-to-end research, development, and delivery of enterprise-scale platforms supporting **\$1T+ daily processing**, driving product innovation from design through production deployment
- Led global engineering teams (**30+ across US/UK/India**), establishing development standards, Agile delivery frameworks, and engineering best practices that improved team velocity by **15%**
- Spearheaded platform modernization initiatives transforming legacy systems into cloud-native, event-driven architecture (AWS, Kafka, Kubernetes), delivering **40% throughput improvement**
- Implemented AI-assisted development workflows and ML-based anomaly detection, accelerating delivery speed and improving operational intelligence
- Ensured regulatory compliance (FRB, FINRA, SEC) across mission-critical systems, maintaining **99.97% uptime** across 50+ integrated platforms
- Partnered with executive stakeholders to align technology roadmaps with strategic business objectives, managing multi-million dollar program budgets

Bank of America — VP, Structured Products & Mortgage Technology (2011 - 2015)

- Led cross-functional engineering teams in the research, design, and delivery of real-time pricing and analytics platforms for structured products and mortgage trading
- Directed consolidation of risk systems contributing to ~\$2B capital efficiency, demonstrating ability to translate R&D investment into quantifiable business outcomes
- Built and scaled high-availability platforms supporting complex analytical workloads across trading and risk domains

Bank of America — AVP, Whole Loan Trading Desk Support (prior to 2011)

- Architected and delivered end-to-end Java EE trading support applications, leading full product development lifecycle from requirements through deployment
- Introduced CI/CD practices reducing release cycle from monthly to weekly, establishing a culture of continuous improvement and engineering excellence

Senior Programmer Analyst — Knight Trading (2004)

DB2 / WebSphere Administrator & Sr. Java Developer — Kyocera Mita (2003)

Sr. Java Web Developer — Mellon Investor Services (2001)

Sr. Java GUI Developer — Thomson Financials (2001)

Sr. Java GUI Developer — Icor Brokerage (2000)

AI & INNOVATION

- Building GenAI platforms (RAG pipelines, agentic AI systems) for real-world applications
- Applied ML for anomaly detection and operational intelligence
- Driving AI-assisted SDLC workflows improving delivery speed and quality

EDUCATION

Bachelor of Technology — Anna University

SKILLS

Leadership: Executive stakeholder management, global team leadership (30+ engineers), P&L ownership, strategic planning, program management, product roadmap execution, SDLC, Agile, ITIL, SOX, FRB/FINRA/SEC compliance **Architecture:** Cloud-native architecture (AWS, Kubernetes), enterprise architecture, event-driven systems (Kafka), distributed systems, high-availability platforms (99.97% uptime) **AI & Data:** GenAI (RAG pipelines, agentic AI), ML anomaly detection, AI-assisted SDLC, Spark, Databricks, ETL/ELT, Snowflake, Hadoop, Cassandra, MongoDB **Engineering:** Java, Python, Node.js, SQL, Oracle, Sybase, REST/SOA, WebLogic, Kafka, Kubernetes, AWS **Tools:** ServiceNow, JIRA, Git, Visio, Microsoft Project
