

ARUN ARUNACHALAM

Jersey City, NJ | 908-330-1050 | asnarun75@gmail.com | linkedin.com/in/arunarunachalam75

PROFESSIONAL SUMMARY

Technology executive with 17+ years of experience leading large-scale platform implementations, client portfolio oversight, and enterprise automation solutions across complex, regulated environments. Proven track record directing customer-facing engagements from operational management to C-suite, driving customer satisfaction, and optimizing technology platforms for measurable business outcomes. Combines deep expertise in process-oriented program management, AI-enabled automation, and global team leadership to accelerate implementations and deliver continuous optimization. Adept at building and scaling client-facing technology portfolios while ensuring compliance, quality, and sustained performance.

SIGNATURE IMPACT

- **\$8M** enterprise transformation → **40% performance improvement, 30% cost reduction**
- **AI-assisted engineering** → **35% faster delivery, 45% productivity gain**
- Scaled platforms from 10 to **50+ systems** with **99.97% uptime**
- Enabled **~\$2B capital efficiency** via risk platform transformation

CORE CAPABILITIES

Client Portfolio Oversight & Customer Satisfaction | Platform Implementation & Optimization | Executive & C-Suite Stakeholder Engagement | AI & Automation Solutions (RAG, Agentic AI) | Process-Oriented Program Management | Cloud-Native Architecture (AWS, Kubernetes) | Event-Driven Systems (Kafka) | Global Team Leadership | Regulatory & Compliance Systems | Data Engineering (Spark, Databricks, ETL/ELT) | Agile & SDLC Delivery | Trading & Risk Platforms

PROFESSIONAL EXPERIENCE

Bank of America — Director, Global Risk & Capital Markets Technology (2015 - Present)

- Directed oversight and growth of enterprise technology platform portfolio, accountable for customer satisfaction, implementation quality, and continuous optimization across **50+ systems**
- Led customer-facing engagements of varying sizes and profiles — from operational management to C-suite — driving alignment on platform strategy and delivery outcomes
- Managed end-to-end implementations of cloud-native, event-driven platforms (AWS, Kafka, Kubernetes) supporting **\$1T+ daily processing**, ensuring on-time delivery and performance targets
- Implemented AI-assisted automation workflows and ML-based anomaly detection, improving operational intelligence and reducing manual intervention
- Built and led global engineering teams (**30+ across US/UK/India**), driving **15% velocity improvement** through process-oriented Agile delivery practices
- Ensured regulatory compliance (FRB, FINRA, SEC) across mission-critical platforms, maintaining **99.97% uptime**

- Delivered real-time platforms improving throughput by **40%** through architecture modernization and optimization initiatives

Bank of America — VP, Structured Products & Mortgage Technology (2011 - 2015)

- Oversaw implementation and optimization of real-time pricing and analytics platforms for structured products and mortgage trading
- Led consolidation of risk systems contributing to **~\$2B capital efficiency**, coordinating cross-functional stakeholders from operations to executive leadership
- Managed client-facing delivery programs, ensuring satisfaction and adoption of new platform capabilities

Bank of America — AVP, Whole Loan Trading Desk Support (prior to 2011)

- Architected and delivered end-to-end Java EE trading support applications, managing full implementation lifecycle from requirements through production
- Introduced CI/CD practices reducing release cycle from monthly to weekly, improving delivery speed and platform stability

Senior Programmer Analyst — Knight Trading (2004)

DB2 / WebSphere Administrator & Sr. Java Developer — Kyocera Mita (2003)

Sr. Java Web Developer — Mellon Investor Services (2001)

Sr. Java GUI Developer — Thomson Financials (2001)

Sr. Java GUI Developer — Icor Brokerage (2000)

AI & INNOVATION

- Building GenAI platforms (RAG pipelines, agentic AI systems) to automate workflows and enable intelligent decision systems in real-world applications
- Applied ML for anomaly detection and operational intelligence, reducing manual oversight and improving platform reliability
- Driving AI-assisted SDLC workflows improving delivery speed, quality, and team productivity

EDUCATION

Bachelor of Technology — Anna University

SKILLS

Leadership: Client portfolio oversight, executive & C-suite stakeholder management, customer satisfaction, global team leadership (30+ engineers), P&L ownership, strategic planning, program management, Agile, ITIL, SDLC, SOX, FRB/FINRA/SEC compliance

Implementation & Optimization: Platform implementation lifecycle, process optimization, continuous improvement, high-availability platforms (99.97% uptime), enterprise architecture

AI & Automation: GenAI (RAG pipelines, agentic AI), ML anomaly detection, AI-assisted SDLC, workflow automation

Architecture: Cloud-native architecture (AWS, Kubernetes), event-driven systems (Kafka), distributed systems

Data: Spark, Databricks, ETL/ELT, Snowflake, Hadoop, Cassandra, MongoDB

Engineering: Java, Python, Node.js, SQL, Oracle, Sybase, REST/SOA, WebLogic, Kafka, Kubernetes, AWS

Tools: ServiceNow, JIRA, Git, Visio, Microsoft Project
