

ARUN ARUNACHALAM

Jersey City, NJ | 908-330-1050 | asnarun75@gmail.com | linkedin.com/in/arunarunachalam75

PROFESSIONAL SUMMARY

Hands-on Solution Architect and Technology Executive with 17+ years designing and delivering highly available, scalable integrations across enterprise platforms in financial services. Proven ability to lead system design and architecture end-to-end — from discovery and SaaS platform evaluation through implementation and production management — while driving cloud-native, event-driven, and AI-enabled solutions that deliver measurable business outcomes. Deep expertise in distributed systems, data engineering, and platform modernization, combined with a continuous-learning approach to emerging SaaS platforms and technologies. Experienced executive leader who leads by example, bridging technical architecture with strategic stakeholder alignment across global organizations.

SIGNATURE IMPACT

- **\$8M** enterprise transformation → **40% performance improvement, 30% cost reduction**
- **AI-assisted engineering** → **35% faster delivery, 45% productivity gain**
- Scaled platforms from 10 to **50+ systems** with **99.97% uptime**
- Enabled **~\$2B capital efficiency** via risk platform transformation

CORE CAPABILITIES

Cloud-Native Architecture & System Design (AWS, Kubernetes) | Scalable Integration Architecture | SaaS Platform Evaluation & Rapid Adoption | Event-Driven Systems (Kafka) | High-Availability Platform Engineering (99.97% uptime) | AI & GenAI Platforms (RAG, Agentic AI) | Data Engineering (Spark, Databricks, ETL/ELT) | Executive Stakeholder Leadership | Global Team Leadership | Platform Modernization | Regulatory & Compliance Systems

PROFESSIONAL EXPERIENCE

Bank of America — Director, Global Risk & Capital Markets Technology (2015 - Present)

- Designed and led enterprise-scale system architecture across trading and data platforms supporting **\$1T+ daily processing**, ensuring highly available and scalable integrations across mission-critical systems
- Architected and implemented cloud-native, event-driven integration patterns (AWS, Kafka, Kubernetes), modernizing legacy infrastructure into scalable, resilient platforms
- Led continuous discovery and rapid adoption of emerging technologies and SaaS solutions, evaluating and integrating platforms to accelerate delivery and expand platform capabilities
- Delivered real-time trading, pricing, and risk platforms improving throughput by **40%** through hands-on architectural leadership and implementation oversight
- Implemented AI-assisted development workflows and ML-based anomaly detection, embedding intelligent automation across the SDLC
- Built and led global engineering teams (**30+ across US/UK/India**), driving **15% velocity improvement** through hands-on technical leadership and architectural governance
- Ensured regulatory compliance (FRB, FINRA, SEC) across mission-critical, high-availability systems

Bank of America — VP, Structured Products & Mortgage Technology (2011 - 2015)

- Designed and delivered real-time pricing and analytics platforms for structured products and mortgage trading, architecting scalable integrations across risk and data systems
- Led consolidation of risk systems through hands-on solution architecture, contributing to ~\$2B capital efficiency
- Drove platform integration initiatives across multiple business lines, aligning system design with evolving business and regulatory requirements

Bank of America — AVP, Whole Loan Trading Desk Support (prior to 2011)

- Architected and delivered end-to-end Java EE trading support applications, designing scalable, highly available solutions from requirements through production
- Introduced CI/CD practices reducing release cycle from monthly to weekly, improving integration reliability and deployment velocity

Senior Programmer Analyst — Knight Trading (2004)

DB2 / WebSphere Administrator & Sr. Java Developer — Kyocera Mita (2003)

Sr. Java Web Developer — Mellon Investor Services (2001)

Sr. Java GUI Developer — Thomson Financials (2001)

Sr. Java GUI Developer — Icor Brokerage (2000)

AI & INNOVATION

- Building GenAI platforms (RAG pipelines, agentic AI systems) for real-world enterprise applications
- Applied ML for anomaly detection and operational intelligence across large-scale data platforms
- Driving AI-assisted SDLC workflows improving delivery speed, quality, and engineering productivity
- Continuous exploration and rapid learning of emerging SaaS platforms and AI-enabled solutions

EDUCATION

Bachelor of Technology — Anna University

SKILLS

Leadership: Executive stakeholder management, global team leadership (30+ engineers), P&L ownership, strategic planning, program management, SDLC, Agile, ITIL, SOX, FRB/FINRA/SEC compliance **Architecture:** Solution architecture, system design, scalable integration architecture, cloud-native architecture (AWS, Kubernetes), enterprise architecture, event-driven systems (Kafka), distributed systems, high-availability platforms (99.97% uptime), SaaS platform evaluation and adoption **AI & Data:** GenAI (RAG pipelines, agentic AI), ML anomaly detection, AI-assisted SDLC, Spark, Databricks, ETL/ELT, Snowflake, Hadoop, Cassandra, MongoDB **Engineering:** Java, Python, Node.js, SQL, Oracle, Sybase, REST/SOA, WebLogic, Kafka, Kubernetes, AWS **Tools:** ServiceNow, JIRA, Git, Visio, Microsoft Project
