Jersey City, NJ | 908-330-1050 | asnarun75@gmail.com | linkedin.com/in/arunarunachalam75

PROFESSIONAL SUMMARY

Technology Director with 17+ years of enterprise platform transformation experience, including end-to-end consolidation of complex, multi-system ecosystems into unified, cloud-native architectures across large-scale financial institutions. Proven track record leading identity, access, and security-adjacent platform modernization efforts — migrating legacy infrastructure into cloud-based, event-driven platforms with measurable gains in performance, compliance, and operational efficiency. Deep expertise in regulatory compliance (FRB, FINRA, SEC), global engineering team leadership, and driving enterprise IGA-aligned governance frameworks across mission-critical systems. Combines hands-on architecture leadership with executive stakeholder management to deliver platform unification at scale.

SIGNATURE IMPACT

- **\$8M** enterprise transformation → **40% performance improvement, 30% cost reduction**
- **AI-assisted engineering** → **35% faster delivery, 45% productivity gain**
- Scaled platforms from 10 to **50+ systems** with **99.97% uptime**
- Enabled **~\$2B capital efficiency** via risk platform transformation

CORE CAPABILITIES

Platform Unification & Consolidation | Cloud-Native Architecture (AWS, Kubernetes) | Identity & Access Governance Frameworks | Regulatory & Compliance Systems (FRB, FINRA, SEC, SOX) | Enterprise Platform Modernization | Event-Driven Systems (Kafka) | AI & GenAI Platforms (RAG, Agentic AI) | Data Engineering (Spark, Databricks, ETL/ELT) | Executive Stakeholder Leadership | Global Team Leadership (30+ Engineers) | Trading & Risk Platforms | High-Availability Distributed Systems

PROFESSIONAL EXPERIENCE

Bank of America — Director, Global Risk & Capital Markets Technology (2015 - Present)

- Accountable for end-to-end enterprise platform transformation, consolidating multiple legacy systems into a single, modernized, cloud-native architecture supporting **\$1T+ daily processing**
- Drove platform unification across trading and data systems, migrating fragmented legacy infrastructure to cloud-based, event-driven architecture (AWS, Kafka, Kubernetes)
- Ensured regulatory compliance (FRB, FINRA, SEC, SOX) across mission-critical, enterprise-scale platforms — directly analogous to IGA governance and access control mandates
- Delivered real-time platforms improving throughput by **40%** while maintaining **99.97% uptime** across 50+ integrated systems
- Built and led global engineering teams (**30+ across US/UK/India**), driving **15% velocity improvement** through Agile and SDLC best practices
- Implemented AI-assisted development workflows and ML-based anomaly detection to enhance operational intelligence and platform security posture

Bank of America — VP, Structured Products & Mortgage Technology (2011 - 2015)

- Led consolidation of risk systems across multiple platforms, contributing to ~\$2B capital efficiency — demonstrating large-scale system unification and decommissioning expertise
- Built real-time pricing and analytics platforms for structured products and mortgage trading, requiring strict access governance and compliance controls

Bank of America — AVP, Whole Loan Trading Desk Support (*prior to 2011*)

- Architected and delivered end-to-end Java EE enterprise applications with robust access and security controls
- Introduced CI/CD practices reducing release cycle from monthly to weekly, accelerating platform modernization velocity

Senior Programmer Analyst — Knight Trading (2004)

DB2 / WebSphere Administrator & Sr. Java Developer — Kyocera Mita (2003)

Sr. Java Web Developer — Mellon Investor Services (2001)

Sr. Java GUI Developer — Thomson Financials (2001)

Sr. Java GUI Developer — Icor Brokerage (2000)

AI & INNOVATION

- Building GenAI platforms (RAG pipelines, agentic AI systems) for real-world enterprise applications
- Applied ML for anomaly detection and operational intelligence across large-scale platforms
- Driving AI-assisted SDLC workflows improving delivery speed, quality, and governance

EDUCATION

Bachelor of Technology — Anna University

SKILLS

Leadership: Executive stakeholder management, global team leadership (30+ engineers), P&L ownership, strategic planning, program management, platform unification, SDLC, Agile, ITIL, SOX, FRB/FINRA/SEC compliance

Architecture: Cloud-native architecture (AWS, Kubernetes), enterprise platform consolidation, event-driven systems (Kafka), distributed systems, high-availability platforms (99.97% uptime), enterprise architecture

AI & Data: GenAI (RAG pipelines, agentic AI), ML anomaly detection, AI-assisted SDLC, Spark, Databricks, ETL/ELT, Snowflake, Hadoop, Cassandra, MongoDB

Engineering: Java, Python, Node.js, SQL, Oracle, Sybase, REST/SOA, WebLogic, Kafka, Kubernetes, AWS

Tools: ServiceNow, JIRA, Git, Visio, Microsoft Project
