

ARUN ARUNACHALAM

Jersey City, NJ | 908-330-1050 | asnarun75@gmail.com | linkedin.com/in/arunarunachalam75

PROFESSIONAL SUMMARY

Technology executive with 17+ years of leadership in large-scale platform transformation, portfolio management, and continuous improvement across complex, highly regulated enterprise environments. Proven ability to lead technical operations teams, drive organizational upskilling, and deliver measurable performance outcomes across global, matrixed organizations. Deep expertise in regulatory compliance (FRB, FINRA, SEC), executive stakeholder management, and end-to-end program oversight supporting mission-critical operations. Combines strategic planning with hands-on technical depth to modernize infrastructure, improve throughput, and enable intelligent decision systems at scale.

SIGNATURE IMPACT

- **\$8M** enterprise transformation → **40% performance improvement, 30% cost reduction**
- **AI-assisted engineering** → **35% faster delivery, 45% productivity gain**
- Scaled platforms from 10 to **50+ systems** with **99.97% uptime**
- Enabled **~\$2B capital efficiency** via risk platform transformation

CORE CAPABILITIES

Executive Stakeholder Leadership | Portfolio Management & Program Oversight | Global Team Leadership & Talent Development | Continuous Improvement | Regulatory & Compliance Systems | Platform Modernization | AI & GenAI Platforms (RAG, Agentic AI) | Cloud-Native Architecture (AWS, Kubernetes) | Event-Driven Systems (Kafka) | Data Engineering (Spark, Databricks, ETL/ELT) | Trading & Risk Platforms

PROFESSIONAL EXPERIENCE

Bank of America — Director, Global Risk & Capital Markets Technology (2015 - Present)

- Provided executive leadership and technical oversight across a portfolio of mission-critical platforms supporting **\$1T+ daily processing**, ensuring continuous operational performance and regulatory compliance
- Led portfolio management and strategic planning across trading and data systems, prioritizing initiatives to deliver **40% throughput improvement** and **30% cost reduction**
- Drove continuous improvement programs across engineering and operations, achieving **15% velocity improvement** and measurable gains in delivery quality
- Built, mentored, and upskilled global engineering teams (**30+ across US/UK/India**), fostering talent development and organizational capability growth
- Ensured regulatory compliance (FRB, FINRA, SEC) across all mission-critical systems in a highly regulated environment
- Modernized legacy systems into cloud-native, event-driven architecture (AWS, Kafka, Kubernetes), reducing operational risk and improving platform resilience to **99.97% uptime**
- Implemented AI-assisted development workflows and ML-based anomaly detection to improve operational intelligence and decision-making

- Managed executive stakeholder relationships across business, technology, and compliance functions in a complex, matrixed organization

Bank of America — VP, Structured Products & Mortgage Technology (2011 - 2015)

- Led consolidation and technical oversight of risk systems contributing to ~\$2B **capital efficiency**, coordinating across internal teams and external partners
- Managed portfolio of real-time pricing and analytics platforms for structured products and mortgage trading, driving continuous improvement in performance and reliability
- Partnered with business stakeholders to align technical operations with strategic objectives

Bank of America — AVP, Whole Loan Trading Desk Support (prior to 2011)

- Architected and delivered end-to-end Java EE trading support applications, providing technical oversight across the full SDLC
- Introduced CI/CD practices as part of a continuous improvement initiative, reducing release cycle from monthly to weekly

Senior Programmer Analyst — Knight Trading (2004)

DB2 / WebSphere Administrator & Sr. Java Developer — Kyocera Mita (2003)

Sr. Java Web Developer — Mellon Investor Services (2001)

Sr. Java GUI Developer — Thomson Financials (2001)

Sr. Java GUI Developer — Icor Brokerage (2000)

AI & INNOVATION

- Building GenAI platforms (RAG pipelines, agentic AI systems) to enable intelligent operational decision-making and continuous improvement
- Applied ML for anomaly detection and operational intelligence across large-scale platforms
- Driving AI-assisted SDLC workflows improving delivery speed, quality, and team productivity

EDUCATION

Bachelor of Technology — Anna University

SKILLS

Leadership: Executive stakeholder management, global team leadership (30+ engineers), portfolio management, talent development & upskilling, P&L ownership, strategic planning, program management, continuous improvement, SDLC, Agile, ITIL **Compliance &**

Governance: SOX, FRB/FINRA/SEC regulatory compliance, risk oversight, audit readiness

Architecture: Cloud-native architecture (AWS, Kubernetes), enterprise architecture, event-driven systems (Kafka), distributed systems, high-availability platforms (99.97% uptime) **AI &**

Data: GenAI (RAG pipelines, agentic AI), ML anomaly detection, AI-assisted SDLC, Spark, Databricks, ETL/ELT, Snowflake, Hadoop, Cassandra, MongoDB **Engineering:** Java, Python, Node.js, SQL, Oracle, Sybase, REST/SOA, WebLogic, Kafka, Kubernetes, AWS **Tools:**

ServiceNow, JIRA, Git, Visio, Microsoft Project
