

ARUN ARUNACHALAM

Jersey City, NJ | 908-330-1050 | asnarun75@gmail.com | linkedin.com/in/arunarunachalam75

PROFESSIONAL SUMMARY

Technology executive with 17+ years at the intersection of capital markets, enterprise platforms, and cutting-edge AI — bringing deep expertise in cloud-native architecture, event-driven systems, and GenAI to drive transformative client-facing and internal solutions. Proven track record of building strategic technology relationships across global financial services organizations, translating complex technical capabilities into measurable business outcomes for executive stakeholders. Experienced in aligning large-scale platform modernization initiatives with regulatory, risk, and operational priorities across trading, risk, and data domains. Combines hands-on engineering depth with executive stakeholder leadership to position technology as a competitive differentiator in the global financial system.

SIGNATURE IMPACT

- **\$8M** enterprise transformation → **40% performance improvement, 30% cost reduction**
- **AI-assisted engineering** → **35% faster delivery, 45% productivity gain**
- Scaled platforms from 10 to **50+ systems** with **99.97% uptime**
- Enabled **~\$2B capital efficiency** via risk platform transformation

CORE CAPABILITIES

Executive Stakeholder Leadership | Strategic Technology Relationship Management | AI & GenAI Platforms (RAG, Agentic AI) | Cloud-Native Architecture (AWS, Kubernetes) | Capital Markets & Trading Platforms | Platform Modernization & Transformation | Event-Driven Systems (Kafka) | Data Engineering (Spark, Databricks, ETL/ELT) | Regulatory & Compliance Systems (FRB, FINRA, SEC) | Global Team Leadership | Program Management

PROFESSIONAL EXPERIENCE

Bank of America — Director, Global Risk & Capital Markets Technology (2015 - Present)

- Served as primary technology relationship lead for executive stakeholders across trading, risk, and capital markets — translating complex platform capabilities into strategic business outcomes
- Led enterprise-scale platform transformation across trading and data systems supporting **\$1T+ daily processing**, aligning technology roadmaps with business priorities
- Modernized legacy systems into cloud-native, event-driven architecture (AWS, Kafka, Kubernetes), enabling scalable and resilient financial infrastructure
- Delivered real-time trading, pricing, and risk platforms improving throughput by **40%**, directly supporting client-facing and operational performance
- Implemented AI-assisted development workflows and ML-based anomaly detection, accelerating delivery and improving platform intelligence
- Ensured regulatory compliance (FRB, FINRA, SEC) across mission-critical systems, maintaining trust and operational integrity
- Built and led global engineering teams (**30+ across US/UK/India**) driving **15% velocity improvement** through Agile and SDLC best practices

Bank of America — VP, Structured Products & Mortgage Technology (2011 - 2015)

- Led consolidation of risk systems contributing to ~\$2B capital efficiency, partnering with business stakeholders to align technology investment with capital strategy
- Built real-time pricing and analytics platforms for structured products and mortgage trading, deepening technology's role as a business enabler
- Managed cross-functional relationships across trading desks, risk, and finance to deliver integrated platform solutions

Bank of America — AVP, Whole Loan Trading Desk Support (prior to 2011)

- Architected and delivered end-to-end Java EE trading support applications, serving as the primary technology partner for the whole loan trading desk
- Introduced CI/CD practices reducing release cycle from monthly to weekly, improving responsiveness to business needs

Senior Programmer Analyst — Knight Trading (2004)

DB2 / WebSphere Administrator & Sr. Java Developer — Kyocera Mita (2003)

Sr. Java Web Developer — Mellon Investor Services (2001)

Sr. Java GUI Developer — Thomson Financials (2001)

Sr. Java GUI Developer — Icor Brokerage (2000)

AI & INNOVATION

- Building GenAI platforms (RAG pipelines, agentic AI systems) for real-world financial services applications, enabling intelligent decision systems and operational intelligence
- Applied ML for anomaly detection, enhancing platform reliability and proactive risk management
- Driving AI-assisted SDLC workflows improving delivery speed and quality — positioning AI as a strategic capability across the engineering lifecycle

EDUCATION

Bachelor of Technology — Anna University

SKILLS

Leadership & Relationship Management: Executive stakeholder management, strategic technology relationship management, global team leadership (30+ engineers), P&L ownership, strategic planning, program management, SDLC, Agile, ITIL **Compliance & Risk:** SOX, FRB/FINRA/SEC compliance, regulatory technology, operational risk **Architecture:** Cloud-native architecture (AWS, Kubernetes), enterprise architecture, event-driven systems (Kafka), distributed systems, high-availability platforms (99.97% uptime) **AI & Data:** GenAI (RAG pipelines, agentic AI), ML anomaly detection, AI-assisted SDLC, Spark, Databricks, ETL/ELT, Snowflake, Hadoop, Cassandra, MongoDB **Engineering:** Java, Python, Node.js, SQL, Oracle, Sybase, REST/SOA, WebLogic, Kafka, Kubernetes, AWS **Tools:** ServiceNow, JIRA, Git, Visio, Microsoft Project
