

ARUN ARUNACHALAM

Jersey City, NJ | 908-330-1050 | asnarun75@gmail.com | linkedin.com/in/arunarunachalam75

PROFESSIONAL SUMMARY

Technology executive with 17+ years of experience establishing, implementing, and supervising quality management systems and enterprise governance frameworks across large-scale, mission-critical platforms. Proven ability to plan, direct, and control quality assurance functions — including policies, objectives, procedures, and compliance appraisals — ensuring products and services meet rigorous regulatory and customer-defined standards. Deep expertise in coordinating cross-functional quality programs across multiple facilities and global teams, with a consistent record of driving measurable performance improvement and operational excellence. Combines strategic leadership with hands-on technical depth to align quality objectives with business outcomes.

SIGNATURE IMPACT

- **\$8M** enterprise transformation → **40% performance improvement, 30% cost reduction**
- **AI-assisted engineering** → **35% faster delivery, 45% productivity gain**
- Scaled platforms from 10 to **50+ systems** with **99.97% uptime**
- Enabled **~\$2B capital efficiency** via risk platform transformation

CORE CAPABILITIES

Quality Management Systems & Governance | Regulatory & Compliance Oversight (FRB, FINRA, SEC, SOX) | Policy & Procedure Development | Program Planning, Direction & Control | Executive Stakeholder Leadership | Global Team Leadership | Platform Modernization | AI & GenAI Platforms (RAG, Agentic AI) | Cloud-Native Architecture (AWS, Kubernetes) | Event-Driven Systems (Kafka) | Data Engineering (Spark, Databricks, ETL/ELT)

PROFESSIONAL EXPERIENCE

Bank of America — Director, Global Risk & Capital Markets Technology (2015 - Present)

- Established and enforced quality standards, compliance policies, and governance procedures across mission-critical platforms supporting **\$1T+ daily processing**
- Ensured regulatory compliance (FRB, FINRA, SEC) across all systems, coordinating appraisals and audits to meet customer, company, and regulatory requirements
- Directed and controlled enterprise-scale platform transformation programs, defining objectives, plans, and organizational structures across global teams
- Led and supervised global engineering teams (**30+ across US/UK/India**), driving **15% velocity improvement** through structured SDLC governance and quality controls
- Implemented quality-driven AI-assisted development workflows and ML-based anomaly detection to improve operational reliability and service quality
- Modernized legacy systems into cloud-native, event-driven architecture (AWS, Kafka, Kubernetes), achieving **99.97% uptime** and **40% throughput improvement**
- Delivered real-time trading, pricing, and risk platforms with measurable quality and performance outcomes

Bank of America — VP, Structured Products & Mortgage Technology (2011 - 2015)

- Coordinated and supervised quality and risk management initiatives contributing to ~\$2B capital efficiency
- Established standards and procedures for real-time pricing and analytics platforms across structured products and mortgage trading
- Implemented governance frameworks ensuring product quality met internal and regulatory specifications

Bank of America — AVP, Whole Loan Trading Desk Support (prior to 2011)

- Architected and delivered end-to-end Java EE trading support applications meeting defined quality and performance standards
- Introduced CI/CD practices and quality controls reducing release cycle from monthly to weekly, improving delivery consistency and reliability

Senior Programmer Analyst — Knight Trading (2004)

DB2 / WebSphere Administrator & Sr. Java Developer — Kyocera Mita (2003)

Sr. Java Web Developer — Mellon Investor Services (2001)

Sr. Java GUI Developer — Thomson Financials (2001)

Sr. Java GUI Developer — Icor Brokerage (2000)

AI & INNOVATION

- Building GenAI platforms (RAG pipelines, agentic AI systems) to support operational intelligence and quality-driven decision-making
- Applied ML for anomaly detection, improving system reliability and proactive issue identification
- Driving AI-assisted SDLC workflows improving delivery speed, quality, and consistency

EDUCATION

Bachelor of Technology — Anna University

SKILLS

Leadership: Executive stakeholder management, global team leadership (30+ engineers), quality management system oversight, policy and procedure development, program planning and control, P&L ownership, strategic planning, SDLC, Agile, ITIL, SOX, FRB/FINRA/SEC compliance **Architecture:** Cloud-native architecture (AWS, Kubernetes), enterprise architecture, event-driven systems (Kafka), distributed systems, high-availability platforms (99.97% uptime) **AI & Data:** GenAI (RAG pipelines, agentic AI), ML anomaly detection, AI-assisted SDLC, Spark, Databricks, ETL/ELT, Snowflake, Hadoop, Cassandra, MongoDB **Engineering:** Java, Python, Node.js, SQL, Oracle, Sybase, REST/SOA, WebLogic, Kafka, Kubernetes, AWS **Tools:** ServiceNow, JIRA, Git, Visio, Microsoft Project
