

ARUN ARUNACHALAM

Jersey City, NJ | 908-330-1050 | asnarun75@gmail.com | linkedin.com/in/arunarunachalam75

PROFESSIONAL SUMMARY

Seasoned technology executive with 17+ years of in-depth experience architecting and delivering enterprise-scale software engineering solutions across complex, highly regulated environments. Combines deep expertise in cloud-native architecture, event-driven systems, and AI/GenAI platforms with a proven ability to interrelate organizational capabilities across segments and enterprise-wide to drive measurable business outcomes. Demonstrated success modernizing legacy infrastructure into high-availability, distributed platforms that power exceptional operational experiences at scale. Brings a hands-on engineering foundation alongside executive-level stakeholder leadership to accelerate delivery, elevate platform quality, and enable intelligent, data-driven decision systems.

SIGNATURE IMPACT

- **\$8M** enterprise transformation → **40% performance improvement, 30% cost reduction**
- **AI-assisted engineering** → **35% faster delivery, 45% productivity gain**
- Scaled platforms from 10 to **50+ systems** with **99.97% uptime**
- Enabled **~\$2B capital efficiency** via risk platform transformation

CORE CAPABILITIES

Cloud-Native Architecture (AWS, Kubernetes) | Enterprise Platform Engineering | AI & GenAI Platforms (RAG, Agentic AI) | Event-Driven Systems (Kafka) | Distributed Systems & High-Availability Design | Data Engineering (Spark, Databricks, ETL/ELT) | Platform Modernization & Legacy Transformation | Regulatory & Compliance Systems | Executive Stakeholder Leadership | Agile SDLC & Program Management

PROFESSIONAL EXPERIENCE

Bank of America — Director, Global Risk & Capital Markets Technology (2015 - Present)

- Architected and delivered enterprise-scale cloud-native, event-driven platforms (AWS, Kafka, Kubernetes) supporting **\$1T+ daily processing** with **99.97% uptime**
- Led end-to-end platform modernization of legacy systems into distributed, high-availability architectures, improving throughput by **40%**
- Implemented AI-assisted development workflows and ML-based anomaly detection, accelerating delivery velocity by **15%**
- Built GenAI and ML capabilities into operational platforms, enabling intelligent decision systems and real-time analytics
- Ensured regulatory compliance (FRB, FINRA, SEC) across mission-critical enterprise systems
- Drove cross-segment technology strategy, interrelating platform capabilities across trading, risk, and data engineering domains
- Led global engineering organization (**30+ across US/UK/India**) executing large-scale, multi-year transformation programs

Bank of America — VP, Structured Products & Mortgage Technology (2011 - 2015)

- Engineered real-time pricing and analytics platforms for structured products and mortgage trading, contributing to **~\$2B capital efficiency**
- Consolidated and modernized risk systems, improving platform reliability and reducing operational overhead
- Delivered high-availability, low-latency data pipelines supporting complex financial analytics at enterprise scale

Bank of America — AVP, Whole Loan Trading Desk Support (prior to 2011)

- Architected and delivered end-to-end Java EE enterprise applications supporting trading desk operations
- Introduced CI/CD practices reducing release cycle from monthly to weekly, establishing a foundation for modern SDLC

Senior Programmer Analyst — Knight Trading (2004)

DB2 / WebSphere Administrator & Sr. Java Developer — Kyocera Mita (2003)

Sr. Java Web Developer — Mellon Investor Services (2001)

Sr. Java GUI Developer — Thomson Financials (2001)

Sr. Java GUI Developer — Icor Brokerage (2000)

AI & INNOVATION

- Building GenAI platforms (RAG pipelines, agentic AI systems) for real-world enterprise applications
- Applied ML for anomaly detection and operational intelligence across large-scale distributed systems
- Driving AI-assisted SDLC workflows improving delivery speed, code quality, and engineering productivity

EDUCATION

Bachelor of Technology — Anna University

SKILLS

Architecture: Cloud-native architecture (AWS, Kubernetes), enterprise platform engineering, event-driven systems (Kafka), distributed systems, high-availability platforms (99.97% uptime), REST/SOA

AI & Data: GenAI (RAG pipelines, agentic AI), ML anomaly detection, AI-assisted SDLC, Spark, Databricks, ETL/ELT, Snowflake, Hadoop, Cassandra, MongoDB

Engineering: Java, Python, Node.js, SQL, Oracle, Sybase, WebLogic, Kafka, Kubernetes, AWS

Leadership & Delivery: Executive stakeholder management, global team leadership, P&L ownership, strategic planning, program management, Agile, SDLC, ITIL, SOX, FRB/FINRA/SEC compliance

Tools: ServiceNow, JIRA, Git, Visio, Microsoft Project
