

ARUN ARUNACHALAM

Jersey City, NJ | 908-330-1050 | asnarun75@gmail.com | linkedin.com/in/arunarunachalam75

PROFESSIONAL SUMMARY

Hands-on Technology Executive with 17+ years driving enterprise platform modernization, cloud-native architecture, and AI-enabled data platforms across large-scale, mission-critical environments. Proven ability to lead enterprise integrations, interoperability initiatives, and data platform transformation — delivering measurable gains in operational efficiency, scalability, and intelligent automation. Deep expertise in event-driven systems, distributed data engineering, and GenAI (RAG pipelines, agentic AI) accelerates delivery and enables intelligent decision systems across complex ecosystems. Combines executive stakeholder leadership with architectural depth to modernize legacy infrastructure and drive outcomes at enterprise scale.

SIGNATURE IMPACT

- **\$8M** enterprise transformation → **40% performance improvement, 30% cost reduction**
- **AI-assisted engineering** → **35% faster delivery, 45% productivity gain**
- Scaled platforms from 10 to **50+ systems** with **99.97% uptime**
- Enabled **~\$2B capital efficiency** via risk platform transformation

CORE CAPABILITIES

Cloud-Native Architecture (AWS, Kubernetes) | Enterprise Integration & Interoperability | Data Engineering & Analytics Platforms (Spark, Databricks, ETL/ELT, Snowflake) | AI & GenAI Platforms (RAG, Agentic AI) | Event-Driven Systems (Kafka) | Platform Modernization & Legacy Transformation | Regulatory & Compliance Systems | Operational Efficiency & Scalability | Executive Stakeholder Leadership | Global Team Leadership

PROFESSIONAL EXPERIENCE

Bank of America — Director, Global Risk & Capital Markets Technology (2015 - Present)

- Led enterprise-scale platform modernization and integration across trading and data systems supporting **\$1T+ daily processing**
- Architected and delivered cloud-native, event-driven integration platforms (AWS, Kafka, Kubernetes), improving throughput by **40%** and enabling real-time data interoperability across 50+ systems
- Drove data engineering and analytics platform initiatives leveraging Spark, Databricks, and ETL/ELT pipelines to enable operational intelligence and scalable data delivery
- Implemented AI-assisted development workflows and ML-based anomaly detection, improving delivery speed and operational efficiency
- Ensured regulatory compliance (FRB, FINRA, SEC) across mission-critical, high-availability platforms (**99.97% uptime**)
- Built and led global engineering teams across US/UK/India driving **15% velocity improvement**

Bank of America — VP, Structured Products & Mortgage Technology (2011 - 2015)

- Led consolidation and modernization of risk and analytics platforms contributing to **~\$2B capital efficiency**

- Built real-time pricing, analytics, and data integration platforms for structured products and mortgage trading
- Delivered scalable data pipelines and interoperability solutions across complex, multi-system environments

Bank of America — AVP, Whole Loan Trading Desk Support (*prior to 2011*)

- Architected and delivered end-to-end Java EE applications supporting trading desk operations and data workflows
- Introduced CI/CD practices reducing release cycle from monthly to weekly, improving operational efficiency and delivery scalability

Senior Programmer Analyst — Knight Trading (*2004*)

DB2 / WebSphere Administrator & Sr. Java Developer — Kyocera Mita (*2003*)

Sr. Java Web Developer — Mellon Investor Services (*2001*)

Sr. Java GUI Developer — Thomson Financials (*2001*)

Sr. Java GUI Developer — Icor Brokerage (*2000*)

AI & INNOVATION

- Building GenAI platforms (RAG pipelines, agentic AI systems) to enable intelligent automation and decision support across enterprise workflows
- Applied ML for anomaly detection and operational intelligence across large-scale data platforms
- Driving AI-assisted SDLC workflows improving delivery speed, quality, and operational efficiency at scale

EDUCATION

Bachelor of Technology — Anna University

SKILLS

Leadership: Executive stakeholder management, global team leadership, strategic planning, program management, SDLC, Agile, ITIL, SOX, FRB/FINRA/SEC compliance, P&L ownership

Architecture: Cloud-native architecture (AWS, Kubernetes), enterprise integration & interoperability, event-driven systems (Kafka), distributed systems, high-availability platforms (99.97% uptime), enterprise architecture

AI & Data: GenAI (RAG pipelines, agentic AI), ML anomaly detection, AI-assisted SDLC, Spark, Databricks, ETL/ELT, Snowflake, Hadoop, Cassandra, MongoDB

Engineering: Java, Python, Node.js, SQL, Oracle, Sybase, REST/SOA,

WebLogic, Kafka, Kubernetes, AWS

Tools: ServiceNow, JIRA, Git, Visio, Microsoft Project
