

ARUN ARUNACHALAM

Jersey City, NJ | 908-330-1050 | asnarun75@gmail.com | linkedin.com/in/arunarunachalam75

PROFESSIONAL SUMMARY

Technology executive with 17+ years of experience driving large-scale platform modernization, operational excellence, and enterprise-wide digital transformation. Proven track record of building high-availability, cloud-native systems that deliver measurable cost reduction, performance improvement, and business scalability across complex, regulated environments. Combines deep expertise in distributed systems, data engineering, and AI-enabled platforms with strong executive stakeholder leadership to align technology strategy with organizational growth objectives. Adept at leading cross-functional programs that improve operational efficiency, reduce costs, and enable data-driven decision-making across the enterprise.

SIGNATURE IMPACT

- **\$8M** enterprise transformation → **40% performance improvement, 30% cost reduction**
- **AI-assisted engineering** → **35% faster delivery, 45% productivity gain**
- Scaled platforms from 10 to **50+ systems** with **99.97% uptime**
- Enabled **~\$2B capital efficiency** via risk platform transformation

CORE CAPABILITIES

Platform Modernization & Digital Transformation | Cloud-Native Architecture (AWS, Kubernetes) | Operational Excellence & Cost Reduction | Executive Stakeholder Leadership | Data Engineering (Spark, Databricks, ETL/ELT) | AI & GenAI Platforms (RAG, Agentic AI) | Event-Driven Systems (Kafka) | Regulatory & Compliance Systems | Global Team Leadership | Strategic Planning & Program Management | Trading & Risk Platforms | High-Availability Distributed Systems

PROFESSIONAL EXPERIENCE

Bank of America — Director, Global Risk & Capital Markets Technology (2015 - Present)

- Delivered enterprise-scale platform transformation improving operational throughput by **40%** and reducing costs by **30%** across mission-critical systems supporting **\$1T+ daily processing**
- Modernized legacy infrastructure into cloud-native, event-driven architecture (AWS, Kafka, Kubernetes), improving system reliability to **99.97% uptime** and enabling scalability from 10 to **50+ integrated systems**
- Drove strategic technology roadmap and program execution in close partnership with executive stakeholders across business, operations, and compliance functions
- Implemented AI-assisted development workflows and ML-based anomaly detection, accelerating delivery speed by **35%** and improving operational intelligence
- Ensured regulatory compliance (FRB, FINRA, SEC) across mission-critical platforms, maintaining audit-readiness and governance standards
- Built and led global engineering teams (**30+ across US/UK/India**) driving **15% velocity improvement** through Agile and SDLC best practices

- Led real-time trading, pricing, and risk platforms delivering measurable performance and throughput improvements across enterprise operations

Bank of America — VP, Structured Products & Mortgage Technology (2011 - 2015)

- Led consolidation and modernization of risk and analytics systems contributing to ~\$2B **capital efficiency**, demonstrating ability to deliver large-scale transformation with measurable financial impact
- Built real-time pricing and analytics platforms for structured products and mortgage trading, improving operational accuracy and processing speed
- Partnered with business and operations stakeholders to align technology delivery with strategic priorities and cost management objectives

Bank of America — AVP, Whole Loan Trading Desk Support (prior to 2011)

- Architected and delivered end-to-end Java EE trading support applications, improving operational reliability and desk productivity
- Introduced CI/CD practices reducing release cycle from monthly to weekly, accelerating time-to-value and improving deployment quality

Senior Programmer Analyst — Knight Trading (2004)

DB2 / WebSphere Administrator & Sr. Java Developer — Kyocera Mita (2003)

Sr. Java Web Developer — Mellon Investor Services (2001)

Sr. Java GUI Developer — Thomson Financials (2001)

Sr. Java GUI Developer — Icor Brokerage (2000)

AI & INNOVATION

- Building GenAI platforms (RAG pipelines, agentic AI systems) to automate workflows and enable intelligent operational decision-making
- Applied ML for anomaly detection and operational intelligence across enterprise platforms
- Driving AI-assisted SDLC workflows improving delivery speed, quality, and engineering productivity

EDUCATION

Bachelor of Technology — Anna University

SKILLS

Leadership: Executive stakeholder management, global team leadership, P&L ownership, strategic planning, program management, SDLC, Agile, ITIL, SOX, FRB/FINRA/SEC compliance **Architecture:** Cloud-native architecture (AWS, Kubernetes), enterprise architecture, event-driven systems (Kafka), distributed systems, high-availability platforms (99.97% uptime) **AI & Data:** GenAI (RAG pipelines, agentic AI), ML anomaly detection, AI-assisted SDLC, Spark, Databricks, ETL/ELT, Snowflake, Hadoop, Cassandra, MongoDB **Engineering:** Java, Python, Node.js, SQL, Oracle, Sybase, REST/SOA, WebLogic, Kafka, Kubernetes, AWS **Tools:** ServiceNow, JIRA, Git, Visio, Microsoft Project
