PROFESSIONAL SUMMARY

Technology Solutions Architect with 17+ years designing and implementing enterprise-scale platforms across capital markets and financial services at Bank of America. Proven ability to collaborate with finance and IT stakeholders to understand complex business needs and develop tailored architectural solutions, including technical proposals and architecture diagrams for executive and business audiences. Deep expertise in enterprise architecture, platform modernization, and cloud-native systems, with a track record of translating strategic requirements into scalable, high-availability solutions. Combines hands-on architectural depth with strong executive stakeholder engagement to drive measurable business outcomes across global organizations.

SIGNATURE IMPACT

- **\$8M** enterprise transformation → **40% performance improvement, 30% cost reduction**
- **AI-assisted engineering** → **35% faster delivery, 45% productivity gain**
- Scaled platforms from 10 to **50+ systems** with **99.97% uptime**
- Enabled **~\$2B capital efficiency** via risk platform transformation

CORE CAPABILITIES

Enterprise Architecture & Solution Design | Technical Proposals & Architecture Diagrams | Finance & IT Stakeholder Collaboration | Cloud-Native Architecture (AWS, Kubernetes) | Platform Modernization | Event-Driven Systems (Kafka) | AI & GenAI Platforms (RAG, Agentic AI) | Data Engineering (Spark, Databricks, ETL/ELT) | Trading & Risk Platforms | Regulatory & Compliance Systems | Global Team Leadership | Strategic Planning & Program Management

PROFESSIONAL EXPERIENCE

Bank of America — Director, Global Risk & Capital Markets Technology (2015 - Present)

- Collaborated with finance and IT business owners to understand requirements and develop tailored architectural solutions across trading and data systems supporting **\$1T+ daily processing**
- Developed and presented technical proposals, architecture diagrams, and solution designs to executive stakeholders and business partners across global programs
- Modernized legacy systems into cloud-native, event-driven architecture (AWS, Kafka, Kubernetes), delivering a **40% throughput improvement**
- Led enterprise-scale platform transformation across trading, pricing, and risk systems, aligning technical solutions to strategic business outcomes
- Implemented AI-assisted development workflows and ML-based anomaly detection to improve operational intelligence and delivery quality
- Ensured regulatory compliance (FRB, FINRA, SEC) across mission-critical, high-availability platforms (**99.97% uptime**)
- Built and led global engineering teams (**30+ across US/UK/India**) driving **15% velocity improvement**

Bank of America — VP, Structured Products & Mortgage Technology (2011 - 2015)

- Designed and delivered tailored real-time pricing and analytics platforms for structured products and mortgage trading, collaborating closely with finance and business stakeholders
- Led consolidation of risk systems through architectural redesign, contributing to ~\$2B capital efficiency
- Developed solution architectures translating complex business requirements into scalable, production-grade platforms

Bank of America — AVP, Whole Loan Trading Desk Support (prior to 2011)

- Architected and delivered end-to-end Java EE trading support applications aligned to business and desk-level requirements
- Introduced CI/CD practices reducing release cycle from monthly to weekly, improving delivery predictability

Senior Programmer Analyst — Knight Trading (2004)

DB2 / WebSphere Administrator & Sr. Java Developer — Kyocera Mita (2003)

Sr. Java Web Developer — Mellon Investor Services (2001)

Sr. Java GUI Developer — Thomson Financials (2001)

Sr. Java GUI Developer — Icor Brokerage (2000)

AI & INNOVATION

- Building GenAI platforms (RAG pipelines, agentic AI systems) for real-world enterprise applications
- Applied ML for anomaly detection and operational intelligence across capital markets platforms
- Driving AI-assisted SDLC workflows improving delivery speed and solution quality

EDUCATION

Bachelor of Technology — Anna University

SKILLS

Architecture: Enterprise architecture, solution design, technical proposals & architecture diagrams, cloud-native architecture (AWS, Kubernetes), event-driven systems (Kafka), distributed systems, high-availability platforms (99.97% uptime), platform modernization

Stakeholder & Program Management: Finance/IT stakeholder collaboration, executive stakeholder management, strategic planning, program management, SDLC, Agile, ITIL

AI & Data: GenAI (RAG pipelines, agentic AI), ML anomaly detection, AI-assisted SDLC, Spark, Databricks, ETL/ELT, Snowflake, Hadoop, Cassandra, MongoDB

Engineering: Java, Python, Node.js, SQL, Oracle, Sybase, REST/SOA, WebLogic, Kafka, Kubernetes, AWS

Compliance: SOX, FRB, FINRA, SEC

Tools: ServiceNow, JIRA, Git, Visio, Microsoft Project
