PROFESSIONAL SUMMARY

Technology executive with 17+ years of experience leading enterprise-wide resilience, business continuity, and platform transformation programs across mission-critical financial systems at Bank of America. Proven ability to develop and implement comprehensive crisis management frameworks, regulatory compliance programs, and high-availability recovery architectures that sustain operations across complex, large-scale environments. Deep expertise integrating information technology resilience with operational continuity, ensuring 99.97% uptime across platforms supporting \$1T+ daily processing. Combines strategic program leadership with hands-on technical depth to align resilience capabilities with enterprise risk, regulatory, and stakeholder requirements.

SIGNATURE IMPACT

- **\$8M** enterprise transformation → **40% performance improvement, 30% cost reduction**
- **AI-assisted engineering** → **35% faster delivery, 45% productivity gain**
- Scaled platforms from 10 to **50+ systems** with **99.97% uptime**
- Enabled **~\$2B capital efficiency** via risk platform transformation

CORE CAPABILITIES

Enterprise Resilience & Business Continuity | Crisis Management & Emergency Response | High-Availability Platform Architecture (99.97% uptime) | Regulatory & Compliance Programs (FRB, FINRA, SEC) | IT Resilience & Recovery | Risk Platform Transformation | Executive Stakeholder Leadership | Global Program Management | Cloud-Native Architecture (AWS, Kubernetes) | Event-Driven Systems (Kafka) | AI & GenAI Platforms (RAG, Agentic AI) | Data Engineering (Spark, Databricks)

PROFESSIONAL EXPERIENCE

Bank of America — Director, Global Risk & Capital Markets Technology (2015 - Present)

- Ensured regulatory compliance (FRB, FINRA, SEC) across mission-critical systems, maintaining enterprise-wide operational continuity and audit readiness
- Sustained **99.97% uptime** across platforms supporting **\$1T+ daily processing**, establishing high-availability and recovery standards across 50+ integrated systems
- Led enterprise-scale platform transformation across trading and data systems, integrating IT resilience and recovery capabilities into modernized cloud-native architecture (AWS, Kafka, Kubernetes)
- Implemented ML-based anomaly detection and operational intelligence systems to proactively identify and mitigate risk to platform continuity
- Built and led global engineering teams (**30+ across US/UK/India**), coordinating cross-functional program delivery across geographies and business units
- Delivered real-time trading, pricing, and risk platforms improving throughput by **40%**, reducing operational risk exposure across the enterprise
- Implemented AI-assisted development workflows accelerating delivery velocity by **15%**

Bank of America — VP, Structured Products & Mortgage Technology (2011 - 2015)

- Led consolidation of risk systems contributing to ~\$2B **capital efficiency**, reducing systemic exposure and strengthening enterprise risk posture
- Built real-time pricing and analytics platforms for structured products and mortgage trading, ensuring continuous availability and operational resilience for critical business functions

Bank of America — AVP, Whole Loan Trading Desk Support (*prior to 2011*)

- Architected and delivered end-to-end Java EE trading support applications underpinning mission-critical desk operations
- Introduced CI/CD practices reducing release cycle from monthly to weekly, improving recovery speed and deployment resilience

Senior Programmer Analyst — Knight Trading (2004)

DB2 / WebSphere Administrator & Sr. Java Developer — Kyocera Mita (2003)

Sr. Java Web Developer — Mellon Investor Services (2001)

Sr. Java GUI Developer — Thomson Financials (2001)

Sr. Java GUI Developer — Icor Brokerage (2000)

AI & INNOVATION

- Building GenAI platforms (RAG pipelines, agentic AI systems) to support operational intelligence and resilience decision-making
- Applied ML for anomaly detection and operational risk monitoring across enterprise platforms
- Driving AI-assisted SDLC workflows improving delivery speed, quality, and continuity of engineering operations

EDUCATION

Bachelor of Technology — Anna University

SKILLS

Leadership: Executive stakeholder management, global program leadership, enterprise resilience strategy, crisis management, P&L ownership, strategic planning, SDLC, Agile, ITIL, SOX, FRB/FINRA/SEC compliance **Resilience & Risk:** Business continuity planning, IT resilience & recovery, high-availability architecture (99.97% uptime), regulatory compliance, operational risk management, emergency response coordination **Architecture:** Cloud-native architecture (AWS, Kubernetes), enterprise architecture, event-driven systems (Kafka), distributed systems, high-availability platforms **AI & Data:** GenAI (RAG pipelines, agentic AI), ML anomaly detection, AI-assisted SDLC, Spark, Databricks, ETL/ELT, Snowflake, Hadoop, Cassandra, MongoDB **Engineering:** Java, Python, Node.js, SQL, Oracle, Sybase, REST/SOA, WebLogic, Kafka, Kubernetes, AWS **Tools:** ServiceNow, JIRA, Git, Visio, Microsoft Project
